Summary

Senior Android Engineer with 6+ years of experience building map-based, real-time, and performance-critical apps. Led the Android team on Airtel Fiverse, a Google Maps (2D/3D) fiber planning tool used by field teams across India, and raised Saregama Padhanisa (1M+ downloads) from 69% to 99% crash-free. Strong in Kotlin, Coroutines/Flow, MVVM, and Jetpack Compose, with additional depth in ARCore, Filament, and 3D rendering.

Technical Skills

Languages	Kotlin, Java, XML
Android	Jetpack Compose, Coroutines & Flow, ViewModel, LiveData, Room, WorkManager, Navigation, Hilt/Dagger 2, Retrofit/OkHttp, WebSocket, GraphQL, RxJava
Architecture	MVVM, MVI, Clean Architecture, modularization, Material Design 3
Maps, AR & 3D	Google Maps SDK (2D/3D), geofencing, ARCore, Filament, GLB models, Android XR SDK
Media & Realtime	ExoPlayer, Camera2, MediaCodec, FFmpeg, 100ms, Agora, Socket.io, FCM
Performance	ANR reduction, memory profiling, LeakCanary, ProGuard/R8, Firebase Crashlytics
Tools	Git, Jenkins CI/CD, Gradle, Android Studio, Postman, Figma

Experience

Senior Software Engineer, InnovationM **Apr 2023 – Present**

Airtel Fiverse — enterprise fiber planning app (**Play Store**)

- Led a team of 5 Android developers building a map-centric app for field agents across 500+ cities, covering survey, planning, and deployment workflows.
- Cut map rendering time by 60% with 10K+ markers by building custom clustering and viewport-based rendering; added polygons, polylines, custom overlays, and 3D building visualization on Google Maps SDK.
- Built the UI in Jetpack Compose and 3D apartment models with ARCore, Filament, and the Android XR SDK, so agents can plan fiber layouts virtually.
- Designed the MVVM architecture (Hilt, Coroutines/Flow, Retrofit) with offline-first sync via Room and WorkManager for 500MB+ datasets; added SSO and telemetry, and maintained a 99.2% crash-free rate.
- Impact: survey accuracy improved from 75% to 94%, manual paperwork fell by 80%, and workflow time dropped by 40%.

Saregama Padhanisa — AI vocal training app (**Play Store**, 1M+ downloads, 4.5 ⋆)

- Took stability from 69% to 99% crash-free and removed 500+ ANRs by moving heavy work off the main thread and fixing threading issues.
- Integrated live video lessons with the 100ms SDK and a custom music SDK for real-time pitch detection and feedback.
- Built a waveform audio player on ExoPlayer, deep linking that cut navigation steps by 60%, and FCM notifications (96% delivery).
- Sped up feature delivery by 45% through cleaner module boundaries and a more consistent architecture.

Mobile Engineer L1, Squareboat Solutions **Mar 2022 – Apr 2023**

- Led a team of 4 developers shipping apps to 100K+ users; cut load times by 25% with lazy loading and pagination, lifting engagement by 18%.
- **BharatCattle:** architected the Android livestock marketplace (MVVM, real-time listings, search and filters, payments, geolocation, Firebase). **Case Study**.
- **DRL Healify:** built telehealth features for 2K+ patients: video consults on ExoPlayer, appointment calendar, FCM reminders, and a Canvas-based pain heat-map across 10+ body zones.
- Reduced network calls by 35% with Room caching and added a WebSocket layer for real-time updates.

Software Developer, Techtonic Enterprise **Jun 2021 – Mar 2022**

- **Cengage Digital** (**Play Store**, 100K+ downloads, 4.4 ⋆): built an offline-first learning app for 15K+ students with Room caching, AES-256 encrypted downloads, QR-based resource access, ExoPlayer video, and Razorpay payments.
- Built a quiz engine with 8 question types and adaptive difficulty, handling 20K+ attempts per month.

Android Developer, Zappkode Solutions **Aug 2020 – Jun 2021**

- **CICR Cotton** (**Play Store**): built a farmer assistance app with Google Maps field mapping, offline Room storage, and Hindi/Marathi/English localization.

Education

B.E. Information Technology, K.D.K College of Engineering, Nagpur (CGPA 8.05) 2016 – 2020
HSC (Computer Science), G.B.M.M Junior College of Science, Hinganghat (65%) 2016
SSC, Bansilal Katariya High School, Hinganghat (66.36%) 2014

Awards & Certifications

- Aspiring Ace Award 2025 and Dedicated Spirit Award 2024, InnovationM
- Performer of the Quarter (Q4 2023), Squareboat Solutions; Red Hat Certified System Administrator (RHCSA)
